CAFFÈ SANTILLI - MIX VERDE 250g

Blend of raw green coffee beans 100% Arabica

Product Description:	
Product Name:	Caffè Santilli – MIX VERDE
Roasting:	No roasting processes
Blend Type:	<p>100% natural Arabica coffee blends that allow the consumer to dispose of fat deposits. According to a study published in the American Journal of Clinical Nutrition, the fact of just drinking green coffee, without undergoing special low-calorie diets, would allow you to lose weight. Green coffee is characterized by a high content of chlorogenic acid (up to 10% per cup), a component that can reduce the absorption of sugar by the intestine and speed up the metabolism while accelerating the natural process by which our body burns accumulated fat. Raw green coffee does not require any roasting process (but only drying process) and differs from classic coffee (roasted) both for organoleptic qualities of color, taste, aroma and nutritional characteristics. It is suitable for drug stores, specialized stores, herbalist stores, bars and hotels. (in fact it's a diet herbal tea). Green coffee, in addition to helping the body to regulate the use of lipids, helps us as an antioxidant and promotes digestion. It limits and regularizes the release of glucose into the blood, thus attenuating some glycemic peaks due to some eating disorders.</p> <p>PREPARATION:</p> <p>It is recommended to put 4 gr of green coffee in a cup of 100 cc boiling water and leave it to infuse for about 5 minutes. Filter and drink like a normal herbal infusion.</p>
